KEY TO MAP

(COPYRIGHT)

Names of owners are given, and when property is rented by others the name of the occupant is given separately. In a few cases, members of a family are given, but the list is intended to show the "head of the house." **Explanatory Note.**—The numbers given in this key refer to duplicate numbers on the map. These numbers are arranged in order as nearly as possible in Beverly, as follows: Numbers 1 to 86 are on or near the shore, beginning at Hale, near Ober street, and ending near the Manchester line; numbers 87 to 161 are away from the shore, beginning near the Manchester line and ending near the northern and western city boundaries. The rule is approximately the same in Manchester. In Wenham and Hamilton, the lower numbers are near the center of the town. Where no city address is given, the residence is, with a few exceptions, in the city or town under which the name is classified. Abbreviations; av., avenue; (b.), boards; (B), Boston; B. F., Beverly Farms; Brook., Brookline; byd., beyond; Camb., Cambridge; Chasn., Charlestown; Comm. Commonwealth; cott., cottage; cr., crossing; (l.), leased; n., near; opp., opposite; P. C., Pride's Crossing; W. M., West Manchester; Wash., Washington.

The Velvetice Girl is the symbol of purity and excellency in ice cream.

She is usually displayed where Velvetice cream is being served.

When a company produces goods which they are willing to stand behind and on which they are willing to stake their reputation, they distribute those goods under their own "trade mark."

The Ice Cream of which the North Shore Creamery Co. of Beverly is justly proud is:

VELVETICE CREAM

ZONES — PARCEL POST GUIDE AND MAPS. For parcel post purposes the United States is divided into units of area thirty minutes square. Such units form the basis of the eight postal zones. To ascertain in which zone a post office is located from the office of mailing, a parcel post guide, costing 50 cents, and map, costing 20 cents, are jointly used. The guide applies to all offices, but a separate map is required for each unit. A zone key is furnished with the guide for use in the units of area in which some of the largest post offices are located, and makes the map for those units unnecessary. The guide and maps may be purchased by sending a money order to the Third Assistant Postmaster General, Washington, D. C. Stamps are not accepted.

SPRING OF MR. G. D. PEABODY, DANVERS, MASS.

This Water belongs to the so-called diuretic class, that is, water that stimulates the action of the kidneys. It is pure and absolutely unpolluted, in fact, the softest natural water I ever examined. Excellent for all dietetic purposes.

PREFACE

The seventeenth volume of the City Directory shows a net increase in population of over 1300, including the ‡births, over 1918. The usual large percentage of changes has been made from the matter of last year's book, and every available means have been used to secure accuracy in the Directory. We have, as usual, made one thorough and a secondary canvass of the whole city, and present herewith the results: as complete and carefully-compiled a Directory as we believe it possible to issue. The married women's names are inserted by the special method we have adopted, and as there are now over six thousand of these, it will be seen that for dependability and completeness, the value of this volume is not to be compared with that of ordinary directories.

The map shows the many new streets laid out in the city during the past few years and other changes up to date. The special information in regard to the location of the summer residences is a valuable feature of this Directory, and can be found in no other. Both key and map show the latest corrections in the district comprising Beverly, Manchester, Hamilton and Wenham.

Our thanks are tendered to all who have furnished information, and especially to our many subscribers and advertising patrons.

Crowley & Lunt,
July 25, 1919.

CROWLEY & LUNT'S

CITY OF BEVERLY

STREET AND HOUSE DIRECTORY

1919

Giving the location of the streets, places, parks, etc., and showing what other streets and places run from them or across them, with the point at which they intersect. The system adopted for numbering the streets of the city is that a person starting at the beginning of any street and following along with the numbers every even number will be on the left and every odd number on the right hand, with the names of heads of families and persons in business in the order of location.

The cipher (0) is used to designate houses or buildings without numbers. The dash (—) is used to show where connecting streets and avenues cross or intersect, when such intersections or crossings have no number, and also to designate railroad crossings and bridges, parks, etc.

When there is more than one family in a house, the down stairs name is usually given first.

Abbreviations: Ave., avenue; byd., beyond; groc., groceries; jct., junction; n.. near; opp., opposite; r., rear; rep., repairing; smr., summer; s. r., summer resident; var., variety; etc., etc. Houses having erroneous numbers are sometimes enclosed in parentheses (—).

Barrett Everlastic Roofings and Specialties

TRADE B MARK

FOR over sixty years we have been making roofings and other materials for farm and home. Every article on our list, therefore, may be bought with absolute assurance that it will be found thoroughly practical and reliable in every way.

EVERLASTIC MULTI-SHINGLES—Four shingles in one, each strip being as easily laid as a single shingle of any other kind. Saves labor and nails. The surface is "slated" in red or green. These Everlastic Multi-Shingles give a double thickness all over the roof, with three thicknesses where the wear is most severe. Fire-resisting.

EVERLASTIC SLATE-SURFACED ROOFING—A really splendid roofing, beautiful and artistic when laid. Slate-surfaced, yet sold in rolls. Made from the same materials as Everlastic "Rubber" Roofing with a special wearing-surface of crushed-slate particles, either red or green. Makes a fire-resisting and very durable roof.

EVERLASTIC TYLIKE SHINGLES—Same material as the Multi-Shingles, in red or green. Cut in single shingles, 8 x 12¾ in. Laid like ordinary wooden shingles and provide a triple thickness all over the roof. Make a beautiful, fire-resisting roof that will give long service.

EVERLASTIC "RUBBER" ROOFING—The most widely used of all our roll roofings, protecting hundreds of thousands of buildings all over the world. Tough, pliable, water-proof, and low in price. Very easy and economical to lay as no skilled labor is required. Nails and cement packed in each roll.

ELASTIGUM—This wonderful water-proof cement has a hundred different uses. Especially useful for mending gutters, joints around chimneys, parapets, skylights, etc. It is easy to apply, is acid-proof, damp-proof, and it sticks. Can be used in wet weather.

BARRETT'S CARBOSOTA LIQUID CREOSOTE OIL—Is the most efficient wood-preservative on the market today. It combines in the highest degree ability to penetrate deeply into the wood, antiseptic action toward fungous growth and insects, and resistance to the action of water and air. Its use will cut your wood-preserving bills in half.

EVERJET ELASTIC PAINT—Everjet is a high-grade carbon paint for industrial use; has no equal for protecting metal of all kinds against corrosive action of acids, alkalis, fumes, vapors, etc. Being elastic, extremes of heat or cold do not affect it. Water-proof and fire-retarding. Gives a perfect coating unbroken by pinholes or blebs. Try it.

CITY OF BEVERLY
1919
BUSINESS DIRECTORY

Beverly, clean, healthful and beautifully located on the North Shore, with seven miles of the most charming views to be found on this continent, recommends itself to all classes of manufacturers and business men on account of its first-class rail and water facilities and equitable freight rates to all shipping points. Its most significant growth proves it to be the coming city of this part of the Massachusetts coast. With a valuation of $45,000,000.00; it stands third in Essex County, exceeded only by Lynn and Lawrence. Within its limits are scores of millionaires' and multi-millionaires' palaces. The manufacturing industries comprising shoes, machinery, oil, oiled clothing, foundries, bottle caps, mattresses, planing mills, wood and paper boxes, grain elevators, electric works, etc., employ a thrifty and well-paid, intelligent people who are contributing to the growth of the city. The shoe industry, established more than a century ago, alone pays one million dollars per year in wages.

The United Shoe Machinery Company, occupying the largest reinforced concrete factory plant in the world and employing 5,000 mechanics, pays a wage of over one and one-half millions per year. The Gulf Refining Company has its New England terminal here and docks its fine steamships running from Port Arthur, Texas. Spur tracks of the Boston & Maine Railroad connect with all the wharves. Population of Beverly, 1919, estimated about 26,000. Eighteen miles from Boston on the Boston & Maine Railroad. Center of Electric Railway system, connecting with every important city and town in Eastern Massachusetts and New Hampshire. Superior harbor. Four banks. Daily and weekly newspapers. Excellent fire department. Good sewers. Well-lighted streets. First-class public schools. Good hotels. Public school playgrounds costing over $40,000. Modern Bath House at Oceanside Park.

NOTE:—It has been found essential (as a general rule) to insert names of firms under the ONE heading only which best represents them, except in the case of patrons, when extra insertions are sometimes made.

*Patrons' insertions only under this heading.
